

Exclusive offer only for buyers of EBH

This is an exclusive offer only for buyers of “Embroidery business from home” by Martin Barnes. As you know, you got 40 free embroidery designs by purchasing my course. You can find the full design catalog [here](#). Those 40 designs pack were specially digitized to fit in 4x4 inch hoops. It is the medium size pack of my design collection. Now, I have 3 more packs for you, more specifically:

1. Small size pack specially digitized to fit into 2x2 hoops
2. Large size pack specially digitized to fit into 5x7 hoops
3. Extra large size pack specially digitized to fit into 6x10 hoops

The designs will be delivered to you in 6 different embroidery formats, more specifically compatible with Barudan, Brother, Tajima, Melco, Happy, Singer and all machines that can read the above mentioned machine brand formats. The above covers most of the embroidery machines on the market today!

So, this collection includes 160 designs (40 designs digitized 4 times for 4 different hoop sizes) in 6 different machine formats. That means you will receive 960 files!! Yes that's right, 960 embroidery files. You must be thinking that this collection must be very expensive. Well, you would be correct, since the original price of this collection is more than \$200, but as I said this offer is exclusively for buyers of my course, and I have decided to give this collection for only a small fee of \$19.95. This is for real, I give it to you practically for free because I want to help you with your startup if you are a new professional, or to help you expand if you are an old one. Below I give you a small preview of the designs:

I remind you that this is an exclusive offer only for buyers of “Embroidery Business from Home” by Martin Barnes, like you, so the price has been adjusted accordingly. Click [here](#) now or copy the following link to your browser to learn more:
